Shane Nehring

User Experience Designer Tesla, Inc.

As a user experience designer, there's more than simply building experiences that are usable, accessible and pleasant to use. We take pain points from people's everyday lives and create informed solutions that solve both their known and unknown needs.

Experience

Tesla, Inc.
March 2017–

User Experience Designer
Currently leading and designing digital experiences for potential Tesla product owners, current owners, enthusiasts, and employees.

Huge Inc.
January 2015–March 2017

Senior Experience Designer
Worked with top-tier talent to create best-in-class experiences that transform brands by becoming their trusted partners and advocates for their users.

BCG: Digital Ventures
September 2014–January 2015

Senior UX/UI Designer
Led multi-disciplinary teams in the creation of digital innovative products, and defined business opportunities for industry leading clients across the globe.

PUSH Offices
January 2012–July 2014

UX/UI Designer
During my time at PUSH Offices I was given the opportunity to affect the entire process of every project from pitch, research, conception, vision, detailed design, documentation, delivery, and case studies.
